DRAFT 100% DESIGN REPORT, VOLUME 2 OF 3, GROUNDWATER MODELING  
AND DESIGN ANALYSIS, OPERABLE UNIT 1, FRITZSCHE ARMY AIRFIELD FIRE  
DRILL AREA, FORMER FORT ORD, CALIFORNIA

Dear Ms. Youngblood:

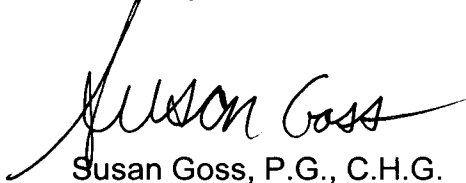

The Department of Toxic Substances Control (DTSC) has reviewed the *"Draft 100% Design Report, Volume 2 of 3, Groundwater Modeling and Design Analysis, Operable Unit 1, Fritzsche Army Airfield Fire Drill Area, Former Fort Ord, California,"* dated May 2006 (Draft 100% Design Report, Volume 2 of 3). The document was prepared by HydroGeoLogic, Inc., for the United States Department of the Army, Corps of Engineers, Sacramento District. The 100% Design Report, Volume 2 of 3 added additional design criteria with respect to the groundwater extraction and treatment system that is currently proposed for the Former Fort Ord Operable Unit 1.

DTSC reviewed the Draft 100% Design Report, Volume 2 of 3 and we have no comments. We look forward to the opportunity to review Volume 3 of 3 of the OU1 groundwater extraction and treatment system design report in the near future.

Ms. Gail Youngblood
